

SANJAN N KSHATRIYA

<https://www.linkedin.com/in/sanjan-kshatriya-3b981b331> | <https://github.com/SanjanKshatriya> |

Profile

Passionate AI and Full-Stack Developer building intelligent applications using the MERN stack, FastAPI, REST APIs. Driven by innovation, hackathons, and creating scalable solutions that solve real-world problems.

Technical Skills

- **Programming Languages:** C ,Python, java (Basics), Javascript , Latex.
- **Web Development:** HTML5, CSS3, MongoDB, Express.js, React.js, Node.js(MERN)
- **Data structures & Algorithm:** Proficient in C with active Competitive Programming practice
- **Tools & Platform:** Git, GitHub, VS code, Jupyter Notebook, Antigravity
- **Hardware:** Digital Electronics

Education

- SSLC | Sri Ramakrishna Vidyalaya,Hosanagara | 2021 – 2022| Percentage: 94.72%
- PUC | D V S Independent PU College ,Shivamogga | 2023 – 2024| Percentage: 89.33%
- Bachelor of Engineering (BE)in Information Science and Engineering | Vivekananda Institute of Technology, Bengaluru | 2024 – 2026| CGPA: 8.34/10.

Projects

CORTEX-OS : Smart AI Hospital Management System (MCP) | Node.js, AI Agents, MCP, Full Stack Development. Developed an AI-powered hospital intelligence platform integrating diagnostics, patient monitoring, staffing management, and intelligent billing using Multi-Agent Systems and Model Context Protocol (MCP).

AGROASSIST: MERN Stack, AI, LLMs

- Developed a full-stack application enabling farmers to interact via voice and image inputs.
- Integrated AI for real-time crop disease analysis, weather queries, and government scheme awareness.
- Built a responsive UI and optimized RESTful APIs for seamless real-time interaction.

Achivements

- **Winner – Inter-College Hackathon**, conducted by the **Mechanical Engineering Department, Vivekananda Institute of Technology (VKIT)**.
- **Winner – Advaita 2026 Inter-College Hackathon**, organized by the **Artificial Intelligence & Machine Learning (AI & ML) Department, Vivekananda Institute of Technology (VKIT)**.
- **Participant – Solaries X National Level Hackathon**, a 24-hour national hackathon hosted by RNS Institute of Technology, collaborating on innovative software solutions under time constraints. **Participant – IBM Technical Event**, held at **Vivekananda Institute of Technology (VKIT)**, gaining exposure to emerging technologies and industry practices.
- Activities and Interests
